The story | The education | What to expect

## Copy & Translation

In 2015 I started my own small business. I write web content and copy text in Swedish.

As a translator I work with English/Chinese > Swedish.

## Swedish

Born in Gothenburg in 1985 and have lived in different parts of the country. When I was little my dad started working on an ad agency, so copy and text has always been a big part of my existence.

## Chinese

In 2013 my wife and I decided to move for a semester to Taiwan and study Mandarin. It went well and we graduated a course from Tunghai University later that year. Ever since I am using Chinese when teaching the bible to Mandarin speakers and I also give 30 minutes lectures in Mandarin from time to time.

## English

In 2012 we joined an English group of bible teachers. For several years we have been speaking English on a daily basis.

## Education & Work

### University

- **English A**, 4 months; **Media and Communication studies A-C**, 1,5 years at Gothenburg University.

Among other reports I did a historic research on a small Swedish city and its two news papers through time.

- **Chinese**, 4 months. Very intense introduction course to Mandarin on Tunghai University (東海大學). Learnt reading and writing but most of all how to speak.

### Theocratic ministry school

I was 6 years old when I joined it. As a student you learn how to teach others effectively using an outline, visual aids, and other very important speaking qualities. Through this school we receive training to regularly give lectures, talks and host conferences in Chinese, English and Swedish. Still going.

### Work

- **skrift.nu** My own company and webpage. I do mostly Copywriting, SEO and web content. The plan is also to more frequently do translation Chinese > Swedish

**Administration.** I did salary administration for a company of 50 people in 2011/2012, and also accounts.

### Food, liquor and sales

I have been in the business for 8 years. At first in retail for Italian food and later at Systembolaget, Sweden's monopoly for alcoholic beverages, where I have been working 6 years. I have knowledge in food pairing, wine origin, but my edge knowledge is beer and brewing.

### My goal:

- I will do my utmost in all situations
- I will only deliver a product I feel proud of
- I will see every task as an opportunity to learn something
